PROFESSIONAL SUMMARY

Full Stack .NET Developer with 2 years of experience in designing and developing enterprise web applications using ASP.NET Core, MVC, Web API, and Azure technologies. Proven expertise in building scalable logistics platforms, managing complex database operations, and implementing CI/CD pipelines.

TECHNICAL SKILLS

Backend: C#, .NET Core, ASP.NET MVC, Web API, RESTful Services

Frontend: HTML5, CSS3, JavaScript, jQuery, Angular, Bootstrap, AJAX

Database: SQL Server, T-SQL, Database Design, Migration & Optimization

Tools & DevOps: Azure DevOps, CI/CD Pipelines, Visual Studio, Git, GitHub, Tortoise SVN

PROFESSIONAL EXPERIENCE

ASP.NET Developer

Pulse Software Solutions LLC | Surat, Gujarat | January 2025 - Present

Project: LoadChief - Digital Delivery Marketplace Platform

- Developed LoadChief platform connecting courier companies with independent drivers, enabling on-demand delivery services with real-time tracking and automated payment processing via Stripe integration
- Built comprehensive job management system with driver credentialing, vetting, and IC compliance reporting features for courier companies
- Developed admin dashboard for driver assignment, job scheduling, route optimization, and operational analytics using ASP.NET Core MVC and Web API
- Created responsive interfaces using AngularJS, jQuery, and AJAX; designed SQL Server database schema for high-volume transactions
- Implemented Azure DevOps CI/CD pipelines for automated testing, build management, and seamless deployment across environments

ASP.NET Developer

Bharat Petroleum Corporation Limited | Kochi, Kerala | January 2024 - January 2025

- Developed and maintained enterprise applications using ASP.NET Core and MVC including MSDS, ESS, SOLOMON EII, and Yield Monitoring System for refinery operations
- Designed complex SQL queries, stored procedures, and database modifications including schema changes, linked servers configuration, and permission management across multiple production databases
- Performed database migrations and restoration across SQL Server instances; utilized AJAX for asynchronous operations improving real-time system responsiveness
- Deployed application updates to production servers, managed file systems, and conducted unit testing and debugging to ensure code stability

EDUCATION

Bachelor of Technology in Computer Science Engineering

Patel College of Science and Technology | Bhopal, Madhya Pradesh | September 2019 - June 2023

Higher Secondary School

R.A.S.N.S College | Siwan, Bihar | June 2016 - June 2018

High School

D.A.V High School | Siwan, Bihar | July 2015 - June 2016

CERTIFICATIONS

Create REST APIs with ASP .NET and C# • Learn Git & GitHub • Command Line

LANGUAGES

English, Hindi
